Education

Senior at Moorestown High School, Moorestown, NJ **September 2022 – June 2026**

Experience

Business Owner, AK Soles **March 2020 – Present**

- ➔ Founded and scaled a limited-edition sneaker reselling business (www.adicooks.com), generating ~$450K in revenue and building a 3,000+ member Discord community. Leveraged cloud computing and social media analytics to optimize pricing and inventory strategies, achieving a 30% increase in sales through data-driven forecasting.
- ➔ Partner with national retail and wholesale clients and provide paid consulting for emerging resellers to refine business models.
- ➔ Authored and published a sneaker-resale market analysis on SSRN (https://dx.doi.org/10.2139/ssrn.5382169) using proprietary sales data to deliver actionable insights for young entrepreneurs.

Co-Founder and Instructor, For Kids By Kids Coding Camp (www.forkidsbykids.org/) **July 2023 - Present**

- ➔ Co-founded and led free, in-person, peer-driven coding camps at local libraries and schools, teaching Scratch, Python, and AI fundamentals to 120+ middle and elementary school students. Currently leading the 7th cohort at a local middle school.
- ➔ Designed an interactive, project-based, and presentation-driven curriculum using tools such as Kahoot and Blooket to spark early interest in computer science. Implemented post-class surveys to measure impact, with results showing an 80% increase in students' (especially girls') interest in pursuing technology careers.

Data Analyst Intern, Penn Injury Science Center (PISC) **February 2025 – Present**

- ➔ Analyze firearm-related incidents to identify demographic, spatial, and temporal patterns in West Philadelphia, supporting public health interventions using machine learning tools.
- ➔ Collaborate with local community and social workers to engage high-risk youth and design data-informed outreach programs.
- ➔ Authored "*Youth Gun Violence in Philadelphia: Trends, Disparities, and the Alignment of Community-Based Interventions*". Abstract submitted to 2026 SAVIR Conference; and manuscript finalized for peer-reviewed publication.

Software Development Intern, UPenn Perelman School of Medicine **August 2024 – July 2025**

- ➔ Collaborated with CBICA researchers to design an AI-powered mobile app for NiChart, enabling early detection of neurodegenerative diseases through imaging biomarkers.
- ➔ Built the app using Swift, Python, AWS, and Xcode; it is currently in beta testing for clinical deployment.

Research Lead – AlertNow **May 2024 – Present**

- ➔ Developed *AlertNow*, a patent-pending, real-time gunshot and firearm detection system using multi-modal deep learning (CNN, YOLOv8) to enhance school safety; presented research at 2025 IEEE ISEC conference (Princeton University) and published in the IEEE *Xplore* Digital Library (**DOI:** 10.1109/ISEC64801.2025.11147316). Currently exploring scalability options.

Research Lead – SeniorConnect **August 2022 – April 2024**

- ➔ Designed and developed *SeniorConnect*, a mobile app-based wearable prototype that connects seniors with cognitive disabilities to their caregivers in real-time. Published in the peer-reviewed *Journal of Emerging Investigators* (https://doi.org/10.59720/25-015) and presented at regional and national science fairs.

Paid Civic Engagement Intern, ALI Leadership Institute **June 2024 – August 2024**

- ➔ Collaborated with township officials, activists, and fellow interns to design inclusive civic engagement strategies.
- ➔ Co-led Moorestown Meals, organizing a community-wide food drive providing 200+ meals to local families in need.

Teaching Assistant & Student Ambassador, HindiUSA **September 2022-Present**

- ➔ Teach Hindi to 15+ middle and high school students annually, strengthening reading, writing, and speaking skills. Mentor and motivate students to participate in cultural programs and poem competitions, promoting cultural awareness and Hindi literacy.
- ➔ Selected as one of 13 Student Ambassadors (out of 400+ applicants) for a fully funded cultural and educational trip to India. Represented HindiUSA in discussions with Indian government officials, local high school students, and national media on Hindi education in the US and K-12 cultural exchange.

Honors and Awards

- ➔ Honored with awards from the NJ Academy of Science, National JSHS, Congressional App Challenge, and ISEF-affiliated fairs; named NJ delegate to the 2026 National Association of the Academies of Science (NAAS) Conference.
- ➔ Invited to perform at Carnegie Hall, New York, as part of the Crescendo International Piano Competition (2021, 2023, & 2024).

Interests and Activities

- ➔ **Extracurriculars:** Varsity Chess Team Captain; Stock Market & Entrepreneurship Clubs; Soccer & Basketball; Piano.
- ➔ **Interests:** Technology for Social Good, Entrepreneurship, STEM Education Access, and Scientific Innovation.
